

401 / 405 The West Mall Office Buildings - Custom Elevator Cab Interiors

Location Toronto, Ontario
Designer / Architect Petroff Partnership Architects
Duration Jan 2005 - Jun 2006

Scope - Soheil Mosun Limited was commissioned to manufacture and install (11) custom elevator cab interiors and hallway transoms, as well as (6) stainless steel call stations.

Highlights - Elevator interior walls feature back-painted reeded tempered glass, and rigidized st. stl. COP panels complimented with etched specification plates and illuminated call buttons. Ceilings feature exquisite brushed st. stl. and recessed pot lights. Transom panels are integrated with 'Captive Network' ready monitors and hidden security cameras. The cab also boasts st. stl. handrails with no visible fasteners, granite wall and floor panels with inlay carpeting.
