

Bassett Healthcare - Donor Recognition Wall

Location Cooperstown, New York
Designer / Architect Cannon Design
Duration June 2006 - May 2007

Scope - Soheil Mosun Limited was contracted to fabricate and install this donor recognition wall for Bassett Healthcare Center in Cooperstown, New York.

Highlights - This donor recognition wall features cherrywood veneered mdf panels with solid cherry wood finished ends. Brass inserts accent the whole back piece with brush finished brass light fixture housings providing illumination from above and below through 3/8" thick tempered glass that features etched and sandblasted graphics and text. The glass is mounted with solid brass rods and caps.
